About the brand

Founded in 2019 by Belgian artist of the same name, Roseline d'Oreye is a fashion accessory brand that specialises in crafting unique and colourful silk scarves and accessories as well as hand painted leather bags. Vibrant and full of personality, the brand distinguishes itself by its surrealist visuals and wanderlust inspirations. Mostly based on Roseline's travel sketchbooks, each scarf is an invitation to dream, travel, escape and treat oneself.

About Roseline

Having started as a children's book illustrator, Roseline was looking for a new support to express her creativity and tell her stories of the world. Silk quickly became evident to the artist, not only for its nobility but also for its heritage - the designer strives to carry through her own designs.

“Creation and drawing have always been pillars of my life. For as long as I can remember, I have always drawn.”

Today, nestled in her Brussels boutique in the Royal Galleries of Saint Hubert of Brussels, the artist keeps expanding her creative world full of whimsy and colours, one scarf at a time.

Brand history

Our values

Transmission

One of the reasons why Roseline fell victim to silk's attraction is the heritage the fabric holds. Bridge between the East and the West, fabric of Kings and Queens and miraculous skin and hair properties, silk is all about transmission and the passage of tradition from a generation to another. Transmission is a core value through which Roseline shares a part of herself when creating each scarf.

Elegance

Through the years, silk has always been a symbol of elegance and refinement. Its notable wearers, from ancient Egyptian royalty figures to 1950 Hollywood icons, have helped build this sense of timeless elegance. Its softness has always fascinated and still fascinates Roseline today. Regardless of age or status, silk carries a quiet elegance, subtly whispering its luxury to those who appreciate it.

Creativity

Wearable pieces of art, creativity is at the core of Roseline's creations. Avid in her pursuit of inspiration, the Belgian designer continually imagines new visuals and colour schemes to embellish this universe of hers. Underlying this creativity is a symbol of stability - the square. Solid and secure, it acts as a link between each new scarf. The boutique in the center of Brussels unfolds as a living canvas of her creative vision.

Our mission
create beauty from within and beyond

The boutique

Located in the heart of Brussels's famous Royal Galleries of Saint Hubert, the eponyme boutique was launched as a living extension of Roseline's art and surrealist universe. Since its opening in 2022,

the boutique, which has quickly become a must-experience for many travelers staying at nearby hotels, has already conquered the hearts of thousands of art enthusiasts, silk connoisseurs and poetic dreamers. Now firmly established in the Galleries, the boutique serves as the tangible embodiment of the brand's online presence.

The Natan Show

June 2024 marks one of the biggest milestones for the brand. A fashion show with the iconic Belgian fashion house Maison NATAN directly in the Royal Galleries and in front of the boutique. What

started as an official invitation to be the first act of the runway by its organisers, ended in a consecration for Roseline d'Oreye - her designs, adorned by professional models walking out of the boutique to hit the runway. That evening signaled a boost in visibility and prestige for the brand, attracting many fashion aficionados eager to discover emerging designers.
